

Features included in Machine Price:

Hydraulic Dual 1) Moving, (1) Stationary

Water Cooling Manifold (12 Zones-in, 12 Zones-out)
1-Stationary, 1-Moving Platen

KEBA Touchscreen Controller (15")

480/3/60 Machine Operation

Euromap 67 Robot Interface

Anti-Wear Screw & Barrel (AW-1 Package: 4140 HCr Screw & X-102 Barrel)

Air Eject (2) Stationary & Moving

Ejector Return Confirmation

3-Color Alarm Light

ABLE TO HANDLE VERY HEAVY MOLDS
(UP TO 46,297 LBS.)

HORIZONTAL & VERTICAL T-Slots

Hopper Block Temperature Control

Manual Mold Clamps

Euromap 73 Robot Interface for Fence Guarding

Linear Guides Under Moving Platen

Access-Door in-Back of Clamp Area

Lighted Electrical Panels

MIOSHA 2nd Disconnect

Dual Locating Ring 4"/5" Compatible

Motion/No-Motion with Key Switch

Hydraulic Ejector Forward Holding w/Valve

Hopper Slide & Drain-Port

Powered Front Gate (Belt Type)

Safety Footboard Inside Clamp Area

ANSI Safety Standards

ANSI Motion/No-Motion Key Switch

Spare Parts Package (Screw Tip, Heater Bands, Thermocouples, etc.)

**Extra Process & Maintenance Training for 1st Year After Initial Start-up
(4 each, Quarterly Visits for One Day per Visit)**

Tariffs & Duties -0-

Options Included in the Quick Delivery Machine

12 Zone Integrated Hot Runner System into Machine Controls with Connectors	\$ 3,925.00
---------------------------------------------------------------------------------------	--------------------

6 ea. Pneumatic Valve Gates Interfaced and Valves Installed on Machine	\$ 4,500.00
-----------------------------------------------------------------------------------	--------------------

2 Extra Air-Eject Circuits on Machine (Total of 2-Stationary & 2-Moving)	\$ 500.00
-----------------------------------------------------------------------------------------	------------------

Tie-Bar Puller (Non-Operator Side)	\$ 18,000.00
-------------------------------------------	---------------------

300mm Die Height Extension (Does not Increase Minimum Die Height, New Maximum Die Height Would be 63")	\$ 17,900.00
-----------------------------------------------------------------------------------------------------------------------	---------------------

Mold Open and Close During Charging This Requires the Following:	\$ 93,750.00
-Electric Drive on Injection Unit	
-Herzog Hydraulic Shut-Off Nozzle	

<u>Machine Options Required Total Price:</u>	\$ 138,575.00
-----------------------------------------------------	----------------------

<u>Machine List Price Including Options:</u>	\$ 746,000.00
-----------------------------------------------------	----------------------
